Love is in the air.

You could feel the love floating through the air at our 2010 Valentine Sectional. People were being extra giddy using the new toys being debuted at this tournament. For the first time in Omaha, we used an electronic scoring system to record the results of each board. This sped up the entering of results and allowed the directors to concentrate on running the game. Most sessions went fine, once people got used to entering the results. We hope everyone got a chance to use the new devices. The directors had planned on using them during the Swiss team and would have worked very well, but there was a setup issue that couldn't be resolved in a timely fashion.

The weather was not a hindrance as we had 292 people attend versus 260 last year. The top three winners were Cheryl Gorman, 25.52 points , Omaha NE. Rod Beery, 20.77

points, Saint Charles MO and Jonathan Cohn, 18.53 points, Gillette WY. All Results click [here](#)

The BridgePad™ scoring system on each table.
